Business Deposit Accounts Overview

BAC Community Bank provides business deposit accounts designed to meet the needs of businesses, municipalities, and non-profit organizations of all sizes. This publication outlines the unique benefits and features of each account along with available services designed to provide customers the ability to streamline processes for improved efficiencies.

At any time and at the discretion of BAC Community Bank standard features and account requirements may change after an account is opened. A customer may need to initiate the use of some services by enrolling in or requesting the service.

See our *Business Service Fees* on pages 11-14 of this publication for other fees that may apply to these accounts.

Other terms and conditions may apply. Refer to our *Deposit Account Agreement & Disclosure* for additional information.

Checking Accounts

Any business checking account with over 500 transactions posted per monthly statement cycle or routine uncollected funds may be reviewed and converted to a Commerce Analyzed Checking account. If BAC Community Bank converts your account you will be notified in advance.

Cannabis Related Businesses, Money Service Businesses, Non-Bank Financial Institutions, and Private ATM Service Providers are only eligible for Commerce Analyzed Checking accounts.

Savings Accounts

Savings and money market accounts are designed to help organizations set aside and save funds as needed. These accounts are not transaction accounts, therefore no more than 6 transfers or withdrawals of the following type are permitted during your monthly statement cycle:

- Payments to third-parties such as checks, drafts, debit cards or similar transactions
- Transfers by phone using our automated service or speaking with a banker on the phone
- Transfers or payments through online, mobile and text banking (including Bill Pay and person to person payments)

There are no limits on transfers or withdrawals made in person at an ATM / ITM, Bank branch or on any type of deposit. If you regularly exceed 6 limited transactions during a statement cycle, BAC Community Bank may convert your savings or money market into a checking account or may close your account.

Certificates of Deposit

Certificates of Deposit are term accounts subject to early withdrawal penalties. Please refer to your CD Receipt and page 9 of this publication for details.

Business Deposit Accounts Overview

Analyzed Accounts

Recoupment Fee

The FDIC charges each insured bank a fee to cover its share of cost of providing deposit insurance to depositors. The FDIC does not charge a bank's depositors for deposit insurance or require banks to pass the cost of deposit insurance on to their depositors. The FDIC does allow a bank to recoup the cost of deposit insurance from its depositors, so long as the fee the bank charges its depositors does not reveal information that could be used to determine the bank's confidential supervisory ratings or mislead depositors by implying the FDIC is charging the fee. The Bank assesses this Recoupment fee to partially recover insurance premiums it pays to the FDIC. The amount of the recoupment fee appears on your monthly Demand Deposit Account Analysis Statement and is based on your average Ledger Balance.

Earnings Credit

An Earnings Credit is used to offset the fees listed above and certain fees noted in the schedule of fees section of the disclosure. The Earnings Credit is calculated by applying an earnings credit rate to the investable balance. The earnings credit rate is determined by the Bank and is subject to change at the Bank's discretion. When your fees exceed your Earnings Credit, a service charge will be assessed for the excess amount.

Negative Available Balance Charge

A rate of 15% is applied to your average negative available balance for the monthly statement cycle.

Branch Deposit

A Branch Deposit consists of a deposit of checks and/or currency made at a branch location including ATM, ITM, and Express Depository.

In-Office Deposit

An In-Office Deposit consists of a deposit of checks made at your business location using the Bank's In-Office Deposit system.

Mobile Deposit

A Mobile Deposit consists of a deposit of a single check using the Bank's mobile banking service.
