Adding Your Bank Card

How to add a Card into Apple Pay* on an iPhone

1. Open Settings and touch **Wallet & Apple Pay**.
2. Tap **Add Credit or Debit Card**.
3. Scan the card or enter the details manually.
4. Enter the correct security code in the **Card Details** section.
5. **Accept** the Terms and Conditions.

How to add a Card into Apple Pay* on an Apple Watch

1. Open **Apple Watch** app on iPhone and go to the **My Watch** tab.
2. Tap **Wallet and Apple Pay**.
3. Tap **Add Credit or Debit Card**. Enter the card details and security code. Accept Terms and Conditions.

How to add a Card into Apple Pay* on a Mac with Touch ID

1. On your Mac model with Touch ID, navigate to **System Preferences**.
2. Tap on **Wallet & Apple Pay**.
3. Tap **Add Card**. Enter the card details and security code. Accept Terms and Conditions.

How to add a Card into Samsung Pay

1. From the device's home screen, touch **Apps**.
2. Touch **Samsung Pay**.
   a. If the app is not already installed, download from Google Play.
3. Touch **Add a credit or debit card**.
4. Align your card inside the frame to automatically detect the card number and expiration date.
   a. Touch **Enter card manually** if your device cannot detect the card information.
5. Enter the remaining information and touch **NEXT**.
6. If requested, enter your billing address and touch **SAVE**.
7. Review the terms and conditions for accuracy, and then touch **AGREE TO ALL**.
8. You may be prompted to call the call center.
   a. Verify call center Yellow Flow number is displayed correctly.
9. Touch **DONE** to complete the process.
10. After your card is added to Samsung Pay, it will be verified by the payment card network (i.e., Visa) and the card issuer. On average, verification will take approximately 5 to 10 minutes. During that time, you will be unable to use your card in Samsung Pay.
    a. You can continue to add cards while others are being verified.

*For Apple Pay, the cardholder must be the user of the iTunes account on the device used for testing to fulfil compatibility requirements.

Adding Your Bank Card

How to add a Card into Google Pay

1. Navigate to the Google Play™ Store then download and install Android Pay. From the app, tap the **Add** icon to add a card.
2. Line up the card in the photo viewer and take the picture.
   a. Alternatively, tap **Add Manually** then enter the required info (e.g., card number, expiration date, etc.).
3. Enter the 3-digit security (CVC) number on the back of card.
4. Enter the street address.
5. Confirm the card details then tap **Continue**.
6. Scroll through and read the Terms of Service then tap **Accept**.
7. If no screen lock is currently set up on the device:
   a. A screen lock is required to use Google Pay.
   b. If the screen lock is ever disabled, you're prompted to reset it or all cards are removed.
      i. Tap **Activate**.
      ii. Select the preferred screen lock type then follow the onscreen instructions for setup.
8. If presented, enter then re-enter a 4-digit Payments PIN.
9. The card is now visible in Android™ Pay.
10. You may be prompted to call the call center.
    a. Verify call center Yellow Flow number is displayed correctly.
11. Touch **DONE** to complete the process.
12. After your card is added to Google Pay, it will be verified by the payment card network (i.e., MasterCard) and the card issuer. On average, verification will take approximately 5 to 10 minutes. During that time, you will be unable to use your card in Google Pay.
    a. You can continue to add cards while others are being verified.
