Getting Ready

To ensure a smooth transition to the FNB digital banking experience, there are a few actions we recommend taking prior to the bank transition on Monday, January 29. Please take a few moments to review the following information and If updates are needed please reach out to FSB.

- An updated browser is the gateway to a better and more secure digital financial experience. It's important to use the most recent version of your preferred browser.
- Current contact information is vital as this will be our primary source of communication during the transition.
- If you utilize financial software such as Quicken or QuickBooks, there will be additional steps to take to ensure you can continue to successfully download transactions from the new digital banking experience.
